

FFSI MEMBERS TESTIMONIALS

We are so lucky to join FFSI as one of the greatest logistics networks. By being FFSI's member, a lot of benefits have impacted our organization quite considerably. The vibrant community from different parts of the world are not just partners, beyond that we are truly a family.

Since joining FFSI, we have established some excellent working relationships with like-minded forwarders from around the globe, who share our vision and commitment to expand our business portfolios by both air and sea. We have developed new trade-lanes in partnership with selected FFSI members and have many reciprocal arrangements that have benefited all parties. Our overseas network business has grown exponentially over the years and such is the importance that we place on the subsequent contribution to our revenue stream, we have created a new department that deals entirely with our partner enquiries.

So as well as just having the peace of mind of global coverage, which enhances our product offering to our customers, we have also developed proactive and long-lasting relationships which have positively impacted all parties.

As a medium-sized freight forwarder, we need reliable partners around the world and we have found them among the members of FFSI. The cohesion in the network is awesome and the FFSI payment guarantee fund also makes it easier to build trust with the members. The regular meetings are like a family meeting.

Velogic, headquartered in Mauritius, has nearly 60 years of experience in the logistics sector. FFSI has presented a plaque of appreciation to its France office for being a member of FFSI for 25 years, this has been a landmark since we joined this network which has instilled a strong collaborative spirit till present day.

FFSI has remained true to its commitment by showing integrity, mitigating financial exposure to its members and that a personalized solution based is being offered across strategic partners around the world.

I have been privileged to participate in FFSI Sales & Marketing meetings year –on- year and no doubt that a strong feeling of true camaraderie has flourished and has become a key component in FFSI DNA and which cannot be replicated in any other networks focusing on massive memberships.

Let's be more innovative in our approach to capture niche market with the invaluable expertise of our members and together we celebrate the success and joy!

Velogic Ltd / Mauritius

Receiving the 25th year Membership Award plaque at the 40th FFSI Worldwide Conference in Bangkok on March 5th, 2024, was a real honor for me.

Over these past 25 years, I've had the opportunity to get familiarized with the rich culture of FFSI and compare it with other networks. The defining aspect of FFSI is the emphasis on friendship, bonding, and dedication. Unlike the typical approach of cultivating friendships from business interactions, FFSI members prioritize building their businesses on a foundation of genuine friendship and mutual trust.

The selection process for members is meticulous, resulting in a community of individuals who excel in their professional skills within their respective territories. The Board of Directors, who are highly established, diligently oversee the network's activities on a daily basis, ensuring that service issues are addressed promptly.

The effectiveness of FFSI's payment protection system was particularly highlighted in 2024 when it successfully resolved a significant bad payment case for my company in South East Asia. This remarkable achievement underscores the robustness of the system and is a testament to its reliability.

In summary, I consider myself privileged to be a member of the FFSI network.

Being part of FFSI is more than just being part of a network, it's about belonging to a global community of trusted partners who prioritize service and excellence. It's a close-knit atmosphere where our global partners ultimately become our friends. Where the emphasis is on shared goals and mutual growth.

Dear Members,

This year has seen many challenges being thrown at our industry. We continue to see flight restrictions due to the continued conflict in Ukraine, the uncertainty and disruption caused by the conflict in the Red Sea and a global slowdown in trade. Although these challenges test us all, it also allows us to look at our partner, suppliers and within our own organisations for ways we can move forward to improve processes and efficiencies which is paramount to our success.

I wish you all, your families and friends a very safe and happy Christmas and all the very best for 2025!!

ANGUS HIND, FFSI DIRECTOR—COMMERCIAL
